

**Key Features**

- Allows for maximum racking space
- Advanced electronic display system
- Is virtually invisible in the cellar
- Easy installation and accessibility
- Includes a condensate pump system
- Grille of unit comes with a smooth, primed finish
- Standard and 24V thermostat options available

**Features**

We have created a Ceiling Mount split system evaporator. Cellar contractors have asked for a design that does not take away from the racking capacity and is virtually invisible in the cellar. Utilizing our Ceiling Mounted evaporator has many benefits: It offers excellent efficiency by drawing in the warmer air which accumulates at the ceiling, cools and disperses the air throughout the environment, allows for maximum racking space, and is virtually invisible in the cellar. Designed with the highest quality, professional grade parts for longevity and performance, it also offers accessibility. It includes a condensate pump system. The grille of unit comes with a smooth primer finish, excellent for painting and color matching. Creating a cellar environment with our new Ceiling Mount split system will offer the flexibility to design a beautiful environment for the aging of fine wines with a virtually invisible cooling system. Included is the quality and reliability that contractors have come to expect from WhisperKOOL.

**NOTE:** The Mini Ceiling Mount system must be installed by a qualified HVAC-R technician. Failure to have the system installed by a qualified technician will void the warranty.

**Specifications**

Cellar Size	500 cu. ft.*
BTUh w/90 °F	1730
CFM	107
Dimensions	22.05"L x 11.08"H x 11.34"D
Refrigerant	R-134a
HP	1/6
Voltage Rating	115V
Weight	40.6 lbs
Amps (starting/running)	Evaporator: 2/1 • Condenser: 11/3.81
Lineset	Suction: 3/8" OD • Liquid: 1/4" OD
Drainline	1/4" ID clear plastic tubing
Installation	Evaporator unit is installed through the cellar ceiling, condenser is installed up to line 100 ft from evaporator.
Thermostat	Digital display with 50-ft. cable and 50-ft. liquid-temperature-measuring bottle probe
Temp. Delta	55°F temperature differential between the cellar temperature and condenser air intake temperature
Warranty	Two-year limited warranty (parts and labor)

\*Each wine cellar is unique and has specific cooling requirements. Heat load calculations should always be performed prior to selecting a cooling unit.

**Optional Accessories**

Exterior condenser housing, cold weather start kit, 24V thermostat conversion kit, condenser coil coating
